Dos and Don'ts

Your interactions with our Platform

Do help us keep our Platform and your user account secure.

Don't permit or provide others access to the Platform or content on the Platform using your user name and password, or the name and password of another authorized user.

Don't circumvent or modify, or attempt to circumvent or modify, or assist any other person in circumventing or modifying any security or technology or software that is part of the Platform.

Do respect our Platform and its use and enjoyment by other users

Don't copy, modify, reverse engineer, disassemble, redistribute, republish, alter, create derivative works from, assign, license, transfer or adapt any of the software, information, text, graphics, source code or HTML code, or other content available on the Platform.

Don't transmit, install, upload or otherwise transfer any virus, bot, worm, or any other computer code, file or program, advertisement, communication, or other item or process to the Platform that in any way affects the use, enjoyment or service of the Platform, or otherwise interrupts, destroys, or limits the functionality of our computers, servers or databases.

Do accurately identify yourself

Don't impersonate another person or company through your user account.

Don't post any content that is false, deceptive, or misleading, or otherwise use the Platform in a manner that is fraudulent or deceptive.

Do only use the Platform and content generated from it for personal use.

Don't use the Platform or any content generated from the Platform for commercial use without our prior written consent.

Third party rights and other laws

Do make sure that you own any necessary rights in materials or content you post or upload.

Do provide any copyright certificates, design patents, or other proof of asserted intellectual property rights promptly upon request.

Don't upload any materials or content that infringes or violates another user's or a third party's intellectual property or other rights.

Don't provide instructions or directions through the Platform to infringe third party intellectual property or other rights.
